JOB DESCRIPTION

OVERVIEW

All of Jigsaw's essential services rely on quality information, systems and technology supported by the 60 members of the IT department.

Working to a brand-new IT Strategy, the team has exciting challenges like enabling colleagues to work effectively from anywhere, automating processes and improving digital services for our customers, while always improving security. The team is also innovating in its ways of working, ensuring transparency, a keen focus on outcomes and faster delivery of benefits to the business.

Bring your expertise and enthusiasm and join us in making a difference with IT.

Role Summary

The Senior Cyber Security Engineer is responsible for protecting Jigsaw Homes Group's digital assets and infrastructure by responding to cyber threats, implementing effective security controls, and strengthening the organisation's overall security posture

Working closely with Cyber Security Analysts, infrastructure teams and an external Security Operations Centre (SOC), the role holder will investigate, contain and remediate security incidents, lead on technical remediation activities, and embed security into the design and delivery of IT services.

The role also plays a key part in mentoring junior team members and promoting a strong, security-aware culture across the organisation.

Responsible To: Cyber Security Manager

MAIN TASKS OR ACTIVITIES

1. Investigate, contain and remediate cyber security incidents identified by the SOC, monitoring tools or internal teams
2. Implement technical security controls across endpoints, networks, servers, cloud and identity platforms
3. Lead technical remediation of vulnerabilities identified through scanning, audits or assurance activities
4. Support the design and delivery of IT services using a secure-by-design approach
5. Harden systems and services post-implementation to reduce attack surface
6. Work closely with business systems, infrastructure, network and workplace technology teams to embed security best practice
7. Maintain and improve security tooling including EDR, SIEM, email security and vulnerability management platforms
8. Contribute to cyber security policies, standards and technical guidance
9. Mentor and support junior cyber security colleagues
10. Stay current with emerging threats, vulnerabilities and remediation techniques
11. Follow all Group policies and procedures in accordance with the role and attend Mandatory training when requested to ensure compliance with Group policies and procedures.

12. Ensure you work in accordance with the Equality Act 2010 and the Equality & Diversity Policy at all times.
13. Carry out any duty which may be, from time to time, requested by the Chief Executive, Deputy Chief Executive or Group Directors commensurate with the position.

Candidate Requirements

Candidate Requirements:

- Degree in Cyber Security, Information Technology, Computer Science, or a related field (or equivalent experience).
- 5+ years of experience in cybersecurity, with at least 2 years in a senior or lead role.
- Strong technical knowledge of endpoint, network and cloud security
- Experience working with SOC functions and security monitoring tools
- Ability to investigate incidents and apply effective technical remediation
- Familiarity with security frameworks such as ISO 27001 and Cyber Essentials Plus.
- Relevant certifications such as CISSP, CISM, CEH, or GIAC.

JIGSAW VALUES
